PROFILE

I am a motivated second-year Software Engineering undergraduate with hands-on experience in software development and system modeling. I am skilled in problem-solving, application development, and technical documentation. Proficient in Java, C#, PHP, MySQL, and UI/UX tools such as Figma, Balsamiq, Lucid chart, and Draw.io. I am currently pursuing a BSc (Hons) in Computing Engineering and seeking a Software Engineering internship to gain industry experience.

EDUCATION

Higher National Diploma in Software Engineering **(2025 – Present)**

National Institute of Business Management (NIBM)

GPA: 3.66

Diploma in Software Engineering **(2023-2024)**

National Institute of Business Management (NIBM)

G.C.E Advanced Level - Physical Science stream **(2020)**

(combined Mathematics, Chemistry, Physics)

G.C.E Ordinary Level **(2017)**

Rahula College – Matara

H/ Katuwana National School

ACADEMIC PROJECTS

1.Hospital Management System (Medi Core HMS)

- Developed a full-stack hospital management system to manage patients, doctors, appointments, and billing.
- Implemented real-time dashboard with data analytics and interactive charts.
- Designed a secure authentication system with role-based access control.
- Built RESTful API with full CRUD operations and MongoDB database integration.
- Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

2. Personal Finance Management System

- Developed a system to track expenses, budgets, and savings.
- Implemented reporting features to analyze spending trends.
- **Technologies:** React, Python, Oracle, SQLite

3. Mobile Application for Pizza Shop

- Built a modular Android application with customer and admin interfaces.
- Implemented GPS-based order routing and real-time order tracking.
- Designed dynamic menus using custom adapters.
- **Technologies:** Android Studio, Java, XML, SQLite

4. Factory Order Management System

- Developed a microservices-based system for managing staff, suppliers, products, and orders.
- Built RESTful APIs using Spring Boot.
- **Technologies:** React, Java, Spring Boot, REST API, MySQL, Postman

5.Factory Management System

- Created a web-based system to manage staff, clients, suppliers, orders, billing, and reports.
- Digitized manual business processes for efficiency.
- **Technologies:** HTML, CSS, JavaScript, MySQL

6. Smart Locker System

7. Smart aquarium monitoring and automation system

SKILLS AND TOOLS

- **Technical skills:** Java, Python, JavaScript, C, C++
- **Web Technologies:** HTML, CSS, React.js, Tailwind CSS
- **Databases:** MySQL, MongoDB, SQLite, Oracle
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)
- **Development Areas:** Full-Stack Web Development, Mobile Application Development, System Design & API Development
- **Tools & Platforms:** Git & GitHub, Postman (API Testing), Android Studios Code / IntelliJ IDEA
- **SOFT SKILLS: Teamwork, Time Management, Leadership, Effective Communication, Critical Thinking, Problem Solving**
- **Language**: English, Sinhala
